

Portable Dispensing

DEMA ONE Dispenser

- Designed with chemical draw tube attached to dispensing unit to easily swap between chemical containers.
- Available in 3 flow rates: Low - 1gpm/4lpm; Medium - 2.5gpm/9.5lpm; High – 4gpm/15lpm
- 19 available colors-coded metering tip options to meet your dilution requirements at different flow rates.
- ASSE 1055B approved backflow preventer options to meet local plumbing agency codes.
- Basic or Premium spray and foaming options. Premium spray and foam provides for optimal reach with a 4ft long spray/foam hose.
- Integrated hanging hooks to hold dispensing unit when not in use or when filling buckets or other large equipment.
